POUTWATER WILDLIFE MANAGEMENT AREA

(Holden)

SIZE: Three parcels totaling 378 acres of generally rough but moderately sloped terrain. Access is located off Mason Road and North Street.

VEGETATION: Mixed hardwood and conifer forest. The small, northwestern parcel is dominated by thick shrub swamp.

WATER: Governor Brook, a cold water stream containing native trout, flows through the northern parcel of this WMA.

WILDLIFE: Grouse, deer, gray squirrel, fox, turkey and numerous nongame species. This area is not stocked with pheasant.

**SPECIAL
REGULATIONS:** None.
